

polaris *SimplyReports*

Knowledge is power. Polaris SimplyReports opens up the power of the Polaris ILS database to help you analyze your collection and patron data and circulation, budget, and operational trends. This intuitive reporting tool makes it easy to mine the full depth and breadth of your database to create custom reports with just a few clicks of the mouse.

Unleash the Power of your Library's Data

Polaris SimplyReports leverages leading-edge technology to optimize reporting flexibility, so that users of all skill levels can easily build their own reports.

SimplyReports allows users to:

- *create custom reports and save custom report parameters*
- *generate report output files in a variety of formats*
- *execute and schedule saved reports individually and in groups*
- *create bibliographic, item, and patron record sets*
- *add reports you build right to your Polaris ILS toolbar*
