What Our Customers Say

"SkyRiver is focused on cataloging and cataloging alone so you get what you really need."

- Melissa M. Powell,
Cataloging Trainer/AspenCat
Union Catalog

"SkyRiver has allowed us to streamline our workflows. We realized that there were routines that existed to accommodate other vendors that were no longer necessary. It definitely was time for a change and the savings for us were great as well."

- Ruth Westfall,
Suffolk Cooperative
Library System

"The records in SkyRiver are as good as you get in OCLC and, many times, even better. It is very easy and intuitive. Life is far less complicated these days."

- Nancy Fleck,
Michigan State University Libraries

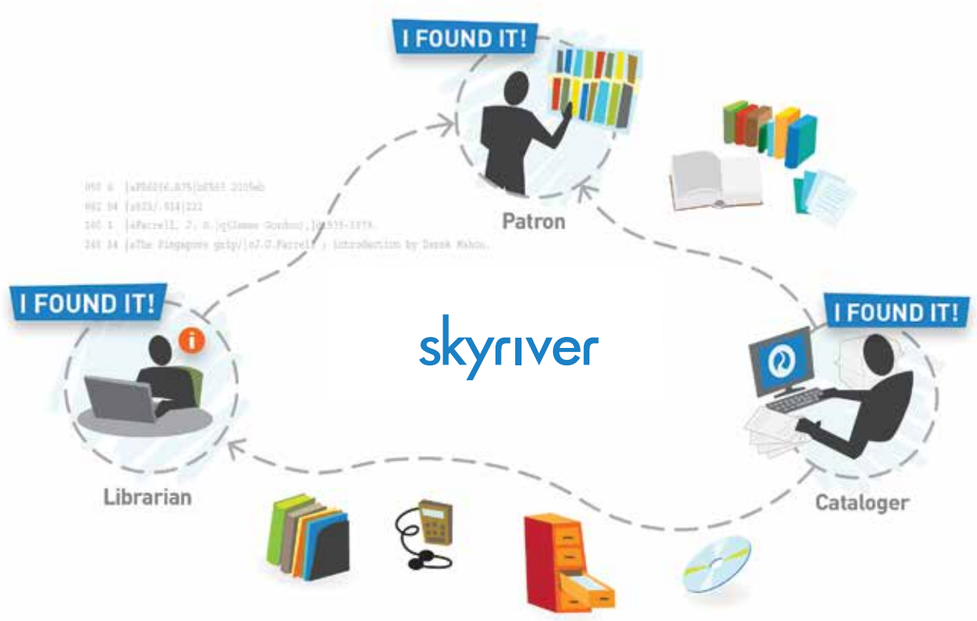
SkyRiver: The Find-It-Fast Cataloging Utility

We understand the work you do. Cataloging is a vital function of the library system. Without richly descriptive catalog records, users would be searching in the dark. Your work lights the way ahead. SkyRiver makes that work easier.

SkyRiver is a full-service cataloging utility that offers unlimited, one-click access to a growing database with more than 44 million unique, high-quality MARC records from the Library of Congress and CONSER. It also offers public domain metadata from SkyRiver customer libraries and hundreds of other contributing libraries.

Both academic and public librarians report finding 98% of the records they need when using SkyRiver.



SkyRiver's features let you work better, save time, and save money:

- **Sophisticated matching algorithms** minimize duplication and omit substandard records, while a powerful discovery layer quickly locates the high-quality records you need.
- **Cooperative cataloging** gives you freedom to use exported records in any way you like.
- **The most cost-effective pricing model** in the industry offers you annual subscriptions at a flat rate for truly unlimited use.
- **The easy-to-use interface** can be customized to serve your individual preferences and workflow.
- **SkyRiver offers full RDA support** by accommodating all levels of RDA adoption, including hybrid AACR2/RDA.
- **SkyRiver works** with any library system (ILS).
- **24/7 customer service** is available whenever you need it.

Designed for librarians by library experts, SkyRiver's ease of use and robust search functionality make it the cataloging utility of choice for libraries of all kinds. If you already use our Sierra Services Platform, you'll enjoy SkyRiver's seamless integration with Sierra, which simplifies workflows and increases efficiency.

SkyRiver is certified as a NACO Exchange Partner and a BIBCO utility in the Library of Congress Program for Cooperative Cataloging (PCC) and is an active participant in PCC policy discussions.

SkyRiver Cataloging Services

SkySearch enables easy record requesting with responses within 48 hours.

SkySearch Plus provides optional ongoing search for difficult-to-locate records so you don't have to make repeat requests.

SkyWatch offers optional CIP record-upgrade notification.

SkyMatch allows for vendor processing of shelf-ready material and creates a streamlined workflow for libraries, from ordering to receiving to cataloging.
