6 REASONS TO JOIN A RESOURCE SHARING NETWORK

iii innovative

Libraries that join a Resource Sharing Network deliver faster, higher fulfillment rates more easily than using an interlibrary loan (ILL) service and at far less cost.

01 SLASH COSTS
On a cost per transaction basis, Resource Sharing is significantly less expensive than ILL. A recent ROI study shows 70% less.*

02 COST-EFFECTIVELY EXPAND COLLECTIONS
On average, 62% of Resource Sharing network holdings are unique content, expanding your collection for pennies compared to the cost of new acquisitions.

03 DRIVE HIGH FULFILLMENT RATES
By thoroughly integrating the ILS and circulation status of material, Resource Sharing provides an unheard of 92% fulfillment rate!**

04 SIMPLIFY DAILY USE FOR ALL STAFF
Resource Sharing uses the same barcodes and workflows to process requests with no special training and pre-formatted collection usage reports provide stats within minutes.
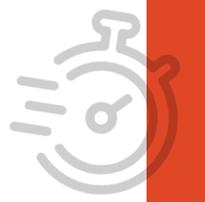

05 INCREASE SPEED AND CONVENIENCE
Automatic system matches cut time spent on paperwork in half (50%) and requestors receive items in just days – from whichever location they prefer.*

06 MAKE A POSITIVE IMPACT
Quickly fulfilling repeated patron/student-initiated requests gives you better future insight, demonstrates great service and keeps them coming back for more.
