

Sierra

PROVEN RESULTS FOR A BETTER STAFF AND PATRON EXPERIENCE

Innovative's Sierra Library Services Platform (LSP) provides a powerful, modern foundation on which to build the future of library services and extend the value of your library. It's designed to make your library more effective and frees you up to do what matters.

Libraries who use Sierra, see an immediate improvement. With Sierra, you can...

**Streamline Staff
Workflows**

**Reduce Systems
Overhead**

**Improve Patron
Services**

Streamline Staff Workflows

STREAMLINED CATALOG MAINTENANCE

Localized profiles and granular match algorithms ensure the accuracy of automated data loads, while Create Lists pairs with global and rapid update capabilities for precision data management that is faster and easier than with alternative tools.

EFFICIENT MANAGEMENT OF PRINT AND ELECTRONIC RESOURCES

System integrations with content providers reduce staff time spent on print and electronic acquisitions, and integration with e-resource knowledgebases simplifies ERM processes for subscription management across all vendors.

 **65%**

Reduction in time spent
managing acquisitions
and print serials

SIMPLIFIED REPORTING AND ANALYTICS

Easy data access and library-friendly tools enable staff to create and analyze reports quickly to expose usage and demonstrate ROI for budgeting purposes.

 **60%**

Reduction in time spent
on creating ILS reports
and analysis

Reduce Systems Overhead

RESTful APIS FOR SEAMLESS INTEGRATIONS

Sierra's RESTful Open APIs share bibliographic, authority, patron, and transactional data to enable real-time, automated communication with third-party systems or custom applications. These integrations can simplify staff workflows between systems and provide patrons with a seamless experience across library discovery tools, courseware, virtual learning spaces, social media, "hot author" holds, and other web services.

REDUCE IT COSTS AND PROVIDE 24/7 AVAILABILITY

Cloud infrastructure and managed services eliminate expenses related to hardware and system management or maintenance and adds cost-effective security compliance and resource expansion as-needed for peak-usage or growth. Sierra is designed to run 24/7, has a track record of over 99% uptime, and is designed to be able to scale up dramatically.

Improve Patron Services

DATA DRIVEN COLLECTIONS

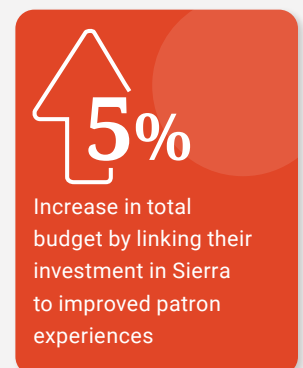

Automated analytics in Decision Center deliver usage and coverage insights to drive weeding, purchases, and material transfers that optimize shelf space and funds invested for community impact.

REDUCE PROCESSING TIME

Real-time database access via Mobile Worklists increases efficiency and eliminates duplicate handling to save time processing materials and increase accuracy for faster patron fulfilment.

IMPROVED PATRON EXPERIENCE

Easy-to-use discovery in Vega Discover and access from mobile devices with Innovative Mobile empowers patrons to succeed without staff intervention and increases satisfaction, demonstrating library value in the community or on campus.
